

## Amount Generally Billed Calculation 07/01/2024

Ascension Illinois calculates one AGB percentage using the "look-back" method and including Medicare fee-for-service and all private health insurers that pay claims to the Organization, all in accordance with IRS Reg. Sec. 1.501(r)-5(b)(3), 1.501(r)-5(b)(3)(ii)(B) and 1.501(r)-5(b)(3)(iii). The details of that calculation and AGB percentage is described below.

This AGB percentage is calculated by dividing the sum of the amounts of all of the hospital facility's claims for emergency and other medically necessary care that have been allowed by Medicare fee-for-service and all private health insurers that pay claims to the hospital facility (separately for facility charges and professional services) by the sum of associated gross charges for those claims. The only claims that are utilized for purpose of determining the AGB are those that were allowed by a health insurer during the 12-month period prior to the AGB calculation (rather than those of claims that relate to care provided during the 12 months).

\*\*Notwithstanding the foregoing AGB calculations, Ascension Illinois has chosen to apply a lower AGB percentage of 15.0% for all of the listed facilities with the following exceptions shown below.

Facility Name	AGB
Ascension Alexian Brothers Behavioral Health Hospital	46.00%
Ascension Behavioral Health Outpatient Group Practice	46.00%
