

Ascension Saint Agnes Hospital Rehabilitation Services

The Rehabilitation Department has had a key role in helping Ascension Saint Agnes Hospital meet our community's needs for many years. We offer Audiology, Occupational, Physical and Speech Therapy, providing one-to-one direct care to our patients throughout the Ascension Saint Agnes continuum. Our therapists specialize in the treatment of many conditions including neurological, orthopedic, spine, hearing and much more. Our on-site Fitness Center provides specialized exercise programs, group exercise classes and personal training once you finish your rehabilitation. To learn more about the services offered at Ascension Saint Agnes Rehabilitation Services, please visit the Rehab page at www.ascension.org or contact 667-234-2800.
